Flourish One

Clarity. Direction. A Roadmap. Then You Build.

Flourish One is a focused 1:1 strategic experience for women entrepreneurs who are ready to step back, get clear about what they want to build, and determine what needs to change, in themselves and in their business, to get there. Whether you are navigating a specific business challenge, considering your next stage of growth, feeling stuck, or simply know your business has greater potential, Flourish One gives you dedicated space to think strategically about what comes next. We help you see clearly, make informed decisions, and build a practical roadmap. You take it from there.

WHAT YOU'LL RECEIVE

- A pre-session Flourish One Diagnostic
- Three private 90–120 minute strategic sessions
- Personalized guidance on your leadership and business challenges
- A customized Flourish One Roadmap
- A practical 90-Day Build Plan
- A 60-minute check-in after 60 days to review progress and adjust your plan

YOUR FLOURISH ONE ROADMAP

You will leave with a personalized roadmap that brings your priorities into focus and answers four essential questions:

- **Where am I now?**
- **Where am I going?**
- **What needs to change?**
- **What do I do next?**

Your roadmap may address leadership, strategy, team, operations, systems, financial management, marketing, growth, or other priorities specific to your business.

THE EXPERIENCE

01 | SEE CLEARLY

Reveal + Decide

We take an honest look at where you and your business are today, what is working, what is not, what may be happening beneath the surface, and the beliefs, behaviors, or bosiness issues that may be holding you back.

02 | SEE BEYOND

Reimagine + Define

We shift from where you are to where you want to go. We clarify what success looks like for you, what you want your business to become, and the life, wealth, impact, and opportunities you want it to create.

03 | BUILD THE PATH

Design + Activate

We connect where you are with where you want to go. Together, we identify what needs to change, establish your priorities, and create a practical roadmap and 90-day action plan.

60 | REVIEW. LEARN. ADJUST.

60-Day Check-In

We reconnect for one hour to review progress, work through what is getting in the way, make adjustments where needed, and clarify your next steps.

WHAT WE ASK OF YOU

- Show up fully and on time for each session.
- Complete the diagnostic and any agreed preparation.
- Be open to honest reflection and challenging conversations.
- Take ownership of your decisions and your roadmap.
- Do the work between and after sessions.

THE INVESTMENT

US$600

Program Fee

Installment options are available.

Your investment is more than financial. Flourish One requires your time, honesty, preparation, and commitment to follow through. The roadmap can provide direction, but results come from what you do with it.

STRATEGIC GUIDANCE, NOT IMPLEMENTATION

Flourish One helps you identify what needs to be built, why it matters, and how to move forward. We may identify the need for new systems, team structures, financial processes, marketing strategies, technology, or outside expertise, but we do not build or implement those solutions on your behalf.

THE OUTCOME

Greater clarity about what you are building, a better understanding of what is standing in the way, and a practical roadmap for moving forward with intention.

See clearly. See beyond. Build intentionally.
